Jessica Kingsley Publishers
books that make a difference

Jessica Kingsley Publishers was founded in 1987 in London by Jessica Kingsley and is committed to publishing books that make a difference. In 2004 we opened our US office, in Philadelphia and in 2017 we became part of the John Murray Press division of Hachette UK.

We publish books for professionals and general readers in a range of subjects. We are well known for our long established lists on the autism spectrum, social work, and arts therapies. More recently we have published extensively in the fields of mental health, counselling, palliative care, practical theology and gender diversity. We have a range of graphic novels across these subject areas, and books for children and young adults on issues including bereavement, depression and anger.

In 2006 a new imprint, Singing Dragon, was born, publishing authoritative professional books on Chinese Medicine, nutrition, yoga therapy and allied fields.

Publishers

Look Inside

GAVIN,

18, Ohio, USA

“I felt like an underdog but, once I found a way to express myself, I didn’t need to rebel any more.”

YOU CAN CHANGE THE WORLD!

YAMIKANI,

18, Lilongwe, Malawi

“The death of my mother resurrected the fighter in me. I told myself that I was going to work hard and reach the top. I will never be a failure.”

Publishers

Look Inside

The Tourettes Survival Kit

How and when should I tell her about Tourettes?

I... have Tourettes syndrome, so I sometimes make sounds and movements I can't help.

I wondered what those movements were! At least now I know they are harmless. Isn't Tourettes all about swearing?

Tell the person you like early; don't worry

Tools

Getting diagnosed accurately is a relief

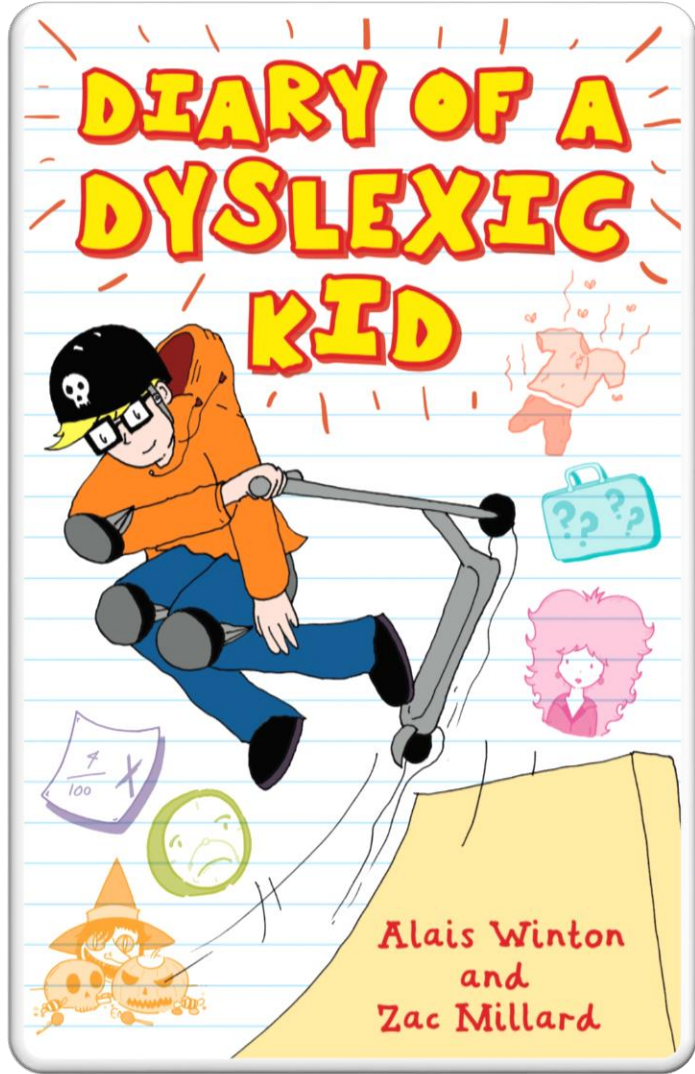

The health professional who diagnoses you could be a neurologist (with an interest in brain conditions), a psychologist (who is interested in behaviour and thinking), a psychiatrist (with a special interest in psychiatric conditions such as ADHD) or perhaps a specialist nurse or occupational therapist. It's less the person's professional training that matters and more their knowledge of tics and Tourettes.

Duncan

Scientists can't decide what Tourettes is. Is it a psychological or neurological disorder? Well obviously it's both!

Look Inside

THURSDAY 9TH

Anyhow I was getting excited and waving my arms about a bit and I knocked my glass over.

Unluckily Jordan was on the next table and when he saw it he shouted out: 'Hey Cal, how come your parents let you out when your such a duh brain?'

Everyone laughed.

I shouted 'I'm not a duh brain – you are!'

But it was a lame come back and no one laughed.

FRIDAY 22ND APRIL

Friday 22nd April

Just 1 week till the play.

We are doing Macbeth.

Weird thing is we're not allowed to say the name of the play in the theatre 'cos it's bad luck – random!

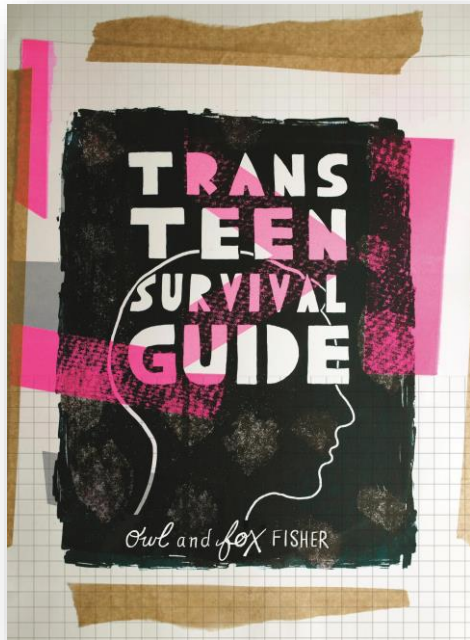

I play some dude that gets killed but then turns up as a ghost to like totes wreck a dinner party.
